

OUR READERS

Our readers are the headmasters, superintendants, and senior executives who are responsible for running the largest, most successful private, religious, charter, and magnet schools and universities in America. They read our journal to gain additional insight into what is happening in their industry and to learn about external factors that may impact their business. They are the decision makers when it comes to purchasing for these schools. They collectively approve and manage execution for several billion dollars of products and services annually.

USE FOR BUSINESS DEVELOPMENT

Each of our case studies are formatted as compendiums (comprehensive compilation of a body of knowledge) and are made available as individual detailed case studies for schools who want to reuse them for business development or advertising purposes. Review our reprints section for more information.

CUSTOM BROCHURES

If you are interested in a custom brochure for your company/school our design staff can create one for you. After the publication has been finalized our highly creative design team will customize a unique brochure for your company. The cover will spotlight your article from the issue and the inside spreads will solely contain information and advertisements about your business/school, affiliates and sponsors.
